Exceeding \$500,000 but not exceeding \$1,000,000	450.00
Exceeding \$1,000,000 but not exceeding \$3,000,000	500.00
For every additional \$1,000,000 or fractional part thereof over \$3,000,000 an additional sum of	100.00

(Also add \$5.00 for advertising.)

THE HOSPITAL FOR THE INSANE.

PONOKA, ALTA., JANUARY 2ND, 1917.

THE HON. A. J. McLEAN,
Provincial Secretary,
Edmonton, Alberta.

SIR,—I have the honour to submit to you the report for 1916, being the sixth annual report of the Hospital for the Insane, Ponoka, along with the usual statistical tables.

On the first day of January, 1916, there were in residence 297 males and 148 females, a total of 445. At the close of the year there were 349 males and 160 females, a total of 509 patients resident in the Hospital. This gives an increase of 52 males and 12 females, a total of 64 for the year.

The admissions were 133 males and 55 females, a total of 188. The number of patients discharged was 88, as follows:

	Males	Females	Total
Recovered	48	31	79
Improved	4	2	6
Not Improved	3	..	3
Total	55	33	88

The above discharges include 9 deportations:

	Male	Female	Total
Russia	1	..	1
Sweden	1	..	1
United States	4	3	7
Total	6	3	9

During the year 68 patients, 42 males and 26 females, were sent out on probation. Of these, 4 males and 1 female, a total of 5, were returned.

Two men escaped and have not been heard of since.

The deaths numbered 35, viz., 25 males and 10 females.

The recovery-rate, based on the total admissions, is in the case of the males 36.09 per cent., and in that of the females 56.36 per cent. In the case of the combined sexes, therefore, the recovery-rate is 42.02 per cent., about the same as it was in 1914.

The death-rate, estimated on the average number resident is for the males 7.46 per cent., and for the females 6.32 per cent., or for both sexes 7.07 per cent. Based on the total number under treatment, these rates are respectively, males 5.81 per cent., females 4.92 per cent., or for both sexes 5.53 per cent.

The rate for the combined sexes is about 1 per cent. higher than it was last year.

The general health of both patients and staff has been satisfactory and, with the exception of a mild epidemic of influenza during January, there has been no serious contagious or infectious disease to contend with.

For the last three years the average annual increase in patients has been 74. Calculating on this basis it should not be difficult to provide suitable accommodation without overcrowding for both sexes until about June, 1918. With the exception of the single rooms it has not been found necessary to use the first floor of the new female building and, since certain difficulties have been overcome, two large rooms are now available as dormitories on the third floor of the south building for the males.

In addition to numerous minor repairs the Public Works Department has painted the outside woodwork, etc., of the main building; the corridor leading to the new female building and the entire south building (male) with the exception of the store-rooms and staff bedrooms.

About 100 pictures have been hung in the wards and other parts of the buildings. The improved appearance of the walls and homely effect is very noticeable.

A new kitchen and bakeshop are nearing completion and will be larger and more conveniently situated than anything we have had hitherto. The flooring throughout is terazzo, which is considered one of the most hygienic and serviceable of materials. Two large refrigerators, one for milk and butter and the other for meat, have also been provided in the same building.

It is proposed to convert the old kitchen into a dining-room for the attendants. As it is not advisable for the nurses and attendants to have meals together we would suggest that a dining-room with a small pantry attached should be built for the nurses on the site of the old refrigerator. The two rooms would then be close to the new kitchen and could be more easily managed.

A third water-well (181 feet deep) was drilled early this spring and along with the other two wells provides an abundant supply of pure water for all purposes.

The Lassen and Hjort Automatic Water Softener has been in operation for the past nine months and is giving satisfaction. The aim is to reduce the hardness of the water from 16 degrees to about 4 degrees; it is not desirable to go beyond this as the chemical reaction leaves too much sulphate of sodium in solution.

To meet the increasing demand on the laundry a third washtub has been installed. Another wringer is required as the one in use is unable to cope with the work and causes unnecessary delay. On an average 4,500 articles are washed each week.

A larger greenhouse is needed to grow plants for the wards and force seeds for the garden. The present one is too small and is not suitably constructed or heated.

A double cottage, on the same plan as those already in use, has been built for the married employees of the power house.

The following are the more important improvements on the Farm this year:

A new root-house 24x70, built by the carpenter with the help of patients.

Stalls to accommodate 57 head of cattle, constructed by the carpenter in the large shed to the north of the barn.

Three miles of fencing put up.

In addition to the ordinary farm work, the teams have been kept busy hauling manure, coal for the public works, and piping for the gas-well.

The yearly average net cost per capita is \$152.86.

The daily average net cost per capita is .42c.

In concluding we desire to express our indebtedness to the various departments for their support and assistance.

I have the honour to be, Sir,

Your obedient servant,

E. H. COOKE,
Medical Superintendent.

THE FARM.

This year the prospects for a good crop were above the average, but on August 11th a severe frost caused widespread damage. The barley, wheat, corn and beans were badly frozen and did not mature.

The potatoes also were damaged and the yield per acre was about half what it was last year. The oats, however, were not much affected and threshed about 41 bushels to the acre, the sample being good. The following is the yield per acre:

Crop	No. of Acres	Total Yield	Per Acre
Oats	123	5,000 bus.	41 bus.
Barley	18	Not Threshed	.. "
Wheat	14	200 bus.	14 "

PROVINCIAL GAOL, LETHBRIDGE.

JANUARY 20TH, 1917.

THE HON. A. J. McLEAN,
Provincial Secretary,
Edmonton, Alberta.

SIR,—I have the honour to submit to you the report for 1916, being the sixth annual report of the Provincial Gaol, Lethbridge, along with the usual statistical tables.

Our average prison population for the past year has been 77.17—the lowest in our history—due to the continuance of war conditions and the closing of the liquor bars in the province on July 1st last.

So few men were coming to us that in midsummer an order-in-council was issued, sending men to this Institution for much shorter terms than formerly—even 10 days up, and by this means we have had enough to carry on all our farm operations successfully.

The general health of the inmates has continued good and no epidemics have prevailed. Several major operations have been performed on our men at the Galt Hospital to remove obstacles in their way to earning an honest living, or to prepare them for enlisting for active service upon their release.

We had one camp out grading and repairing roads all the season. Teams and labour were very scarce throughout this district and our men kept the roads in good shape, which is much appreciated by the travelling public.

The past season was very favourable for our farming operations and we were blessed with good returns for our labour. We had good yields and received good prices for our produce, as our tabulated reports will show, and have been able to materially reduce the per capita cost of running this Institution.

Last spring we purchased an additional 240 acres of land adjoining our former holdings. This was virgin prairie, but we broke it all and disked it and have it in excellent condition for planting next spring.

The breaking done on this particular piece of land by our prisoners is worthy of special mention, as it was splendidly done and won well merited praise from capable judges throughout this south country.

In order to prepare to irrigate this land, if necessary, we built a long fill and flume to carry the water across a low place. This meant much hard work, but was successfully performed and the ditch we now have is efficient and in good shape to give the desired results.

Early in the year, Deputy Warden Rogers answered the call of Empire and enlisted with the 60th Battery. He has gone forward to the Front, and we thus have another representative there and an additional interest in the great struggle.

Owing to the scarcity of labour throughout the country and the resulting high scale of wages paid labourers during the summer and fall, together with the increasing cost of living, much unrest was evident among our staff and we had difficulty in retaining the services of some valued members.

I would again recommend the department to assist us in this matter by instituting a regular stated scale of increases of salary for competent men who give years of service in this work. It certainly is right and would be much appreciated.

During the year we built a much needed poultry house and a commodious garage. These buildings were absolutely necessary and we appreciate them.

We need an up-to-date cow barn and have no doubt it will be forthcoming in the near future.

It was my privilege to attend the Annual Meeting of the American Prison Congress, held in Buffalo, N.Y., in October last, and I thank you for making it possible for me to thus come in touch with the latest ideas in prison work.

In conclusion, I desire to express my gratitude for the general faithfulness and vigilance of our staff and for the unfailing courtesy and valuable assistance rendered me during the year by yourself and your department.

I have the honour to be, Sir,

Your obedient servant,

J. H. RIVERS,
Warden.

PROVINCIAL GAOL, LETHBRIDGE.

PROVINCIAL GAOL, FORT SASKATCHEWAN.

January 2nd, 1917.

THE HON. A. J. McLEAN,
Provincial Secretary,
Edmonton, Alberta.

SIR,—I have the honour to submit my annual report for the year 1916 of the financial and statistical statements. I have the pleasure of reporting a substantial decrease in prison population for the year; at the close of 1915, we had 101 prisoners, whereas at the close of 1916 our population was only 61, our daily average for the year being 117.72. The health of the prisoners has been excellent.

I am sorry to report the death of one prisoner and the hanging of one, George Leek, Negro. There were five escapes, two of whom have been captured, also James O'Brien, who escaped October 28th, 1915, was captured and sent to the Alberta Penitentiary.

Our farming operations have been very satisfactory and our cellars are full of vegetables and there is plenty of hay and grain for the year. We have broken and cropped 41 acres more land and have 12 more acres to break in the spring.

You will note that I have again reduced my per capita cost from \$175.95 to \$165.66, although the cost of supplies has increased from 10% to 30% and the prison population has decreased. The reduction in the per capita cost being due to the increased revenue from the farm.

I am pleased to state that the discipline in the Institution has been good and I thank the Officers for their loyal support and am very grateful to you and the Department for the many courtesies shown us during the year.

Respectfully submitted,

HARRY A. DRIGGS,
Warden.

PROVINCIAL GAOL, FORT SASKATCHEWAN.
